- Reversionary existing drive-thru units

LOCATION

- Southern England
- Midlands
- South West
- East Anglia

OUR EXPERIENCE

In business for over 90 years, the RO Group has extensive experience in developing commercial properties across sectors.

We recently completed a development at Mid Summer Place, Solstice Park, Amesbury. We built 11 trade counter units and two drive-thru units for Taco Bell and Greggs as well as charging points for electric vehicles.

In October 2025, we acquired a 1,800 sq ft unit let to Burger King in Norwich based on a low passing rent of £65k per annum.

In 2024 we purchased 21 acres of land at Shrivensham Road, Swindon. The land is very well located on a major arterial road in Swindon and has excellent road frontage. We intend to develop a mixed-use commercial scheme to include drive-thru units for food and/or coffee operators.
